

# Red X / Green Arrow LED Lane Traffic Signal Light

**Part Number:** TSS-TR120XS

**Description:** TR120XS LED Fixture Signal

**Price:** \$542.23

## Detailed Description

This traffic signal is used at the Point of Sale area at the entrance of the wash site. The signal is mounted on the canopy over each lane to display the Green Arrow if the lane is open or a Red X if the lane is closed. These signals are non-flashing and can be mounted on swivel or pedestal mounts. They have a voltage rating of 100-240 VAC and an amperage rating of 1.2 A per symbol. The exterior of the signal is made of black baked enamel aluminum with stainless steel hardware and has a high impact plastic face to guard against nasty weather conditions.
