

Flight Deck Control Console

Part Number: P-ACC-2015-A

Description:

Price: \$4,095.0

Detailed Description

The Flight Deck Control Console is essential for managing the wash tunnel from the Point-of-Sale area. It allows team members to directly control the wash tunnel function while observing the wash cycle through the angled watch window. This console includes a 12-function push button station, multiple iPad case holders, and an Iport Luxe wall charging station.

Crafted from stainless steel, the console offers a professional and sleek appearance, ensuring durability and longevity. An Apple Magic keyboard is also included, enhancing functionality and ease of use. Upgrade your control setup with the Flight Deck Control Console for efficient and effective management of your wash tunnel.
