

Tire Shine Brush Bearing Bolt Kit

Part Number: P-SS-1267-A

Description:

Price: \$2.7

Detailed Description

This bolt kit is used on the Tire Shine Applicator at the end of the wash tunnel. The kit is used to replace existing hardware that holds the Tire Shine brush bearing to the applicator. This kit comes with two 7/16" hex cap screws, two 7/16" flat washers, and two 7/16" split lock washers. All the hardware in the kit is stainless steel material.
