

POD EtherNet/IP Cable with M12 Connector and RJ45 Plug - 10M Long

Part Number: CCS-EX9-AC100EN-PSRJ

Description:

Price: \$156.6

Detailed Description

This cable is used in the Maintenance POD's in the wash tunnel. The cable helps connect the POD unit to the network system to allow the units to function properly. On one end of the cable is a 4 Pin M12 male connector and the other end of the cable has a RJ45 male plug connector. Both connectors are straight angled, and this cable has a length of 10 meters. The cable is part of the EX9 series of industrial communication cables.
