

Conveyor Drive Motor Taper Lock Sprocket Bushing 1-1/2"

Part Number: P-C2002

Description:

Price: \$21.99

Detailed Description

Taper Lock sprocket bushing used for conveyor drive Parker motor. This bushing has a 1-1/2" I.D and 2" O.D. bore and 3" bushing outside diameter. The outer diameter is the correct size to connect to the standard Tommy / AVW sprocket. This is the correct taper lock for the Tommy conveyor to attach the Parker motor to the sprocket. Included with the taper lock bushing is the keyway and three mounting screws and lock washers.

Specifications

- Bore Diameter: 1-1/2" ID, 2" OD
- Bushing Diameter: 3" OD
- Keyway Diameter: 3/8"
- Mounting Holes Diameter: 5/16"
