

3/8" Stainless Round U-Bolt

Part Number: P-INS-2008

Description:

Price: \$6.25

Detailed Description

This stainless U-bolt is used in the ladder racking in the wash tunnel. It is used for both hydraulic and electric sites. The U-bolts are mounted onto the ladder rack to help stabilize and mount other equipment to the racking. This U-bolt has a 3/8" diameter and is 4-1/2" in length. This is just for the round U-bolt. If you need a kit with the U-bolt, nuts, washers, and clamp included, please order [P-INS-2008-K](#).
