

1/8" Hydraulic Power Unit Stainless Low Level Switch

Part Number: P-HYD-2069

Description:

Price: \$58.99

Detailed Description

This switch is designed for use in the Hydraulic Power Unit at the wash, featuring an automatic shut-off to protect the unit when oil levels are low. Equipped with an electric point level sensor, it provides reliable single-point detection of tank levels. The top-mounted switch includes a 1/8" Male NPT bulkhead connection and is made from stainless steel to resist rust and corrosion.

Specifications

- Max. Operating Voltage: 240 V
- Max. Current Output: 1500 mA
- Bulkhead Connection: 1/8" MNPT
- Pressure Rating: 20.6 bar
- Max. Operating Temperature: 392F
- Electrical Connection: 24" Teflon Leads
- Material: Stainless Steel
- Dimensions: 1-5/8" X 1-1/4" X 2-1/4"
