

05E80 1/4" Male PVDF Spray Nozzle

Part Number: P-WAT-2133

Description:

Price: \$3.04

Detailed Description

This nozzle is used in multiple applications including in the Conveyor Belt Flush system and Drying Agent arch. This PVC nozzle features a 1/4" Male NPT connection and is made from durable PVDF material to resist abrasion and chemical erosion. With a 5-capacity size, it is rated to spray at a 80-degree angle and operates effectively at 40 PSI.

Specifications
