

Hydraulic Motor Drive Unit for Reverse Hugger and Z-Wrap Brushes

Part Number: P-SW-204

Description: This all-inclusive, pre-assembled unit features a durable stainless steel case and is suitable for both driver and passenger side applications

Price: \$2,400.0

Detailed Description

The P-SW-204 Hydraulic Motor Drive Unit is a comprehensive solution for powering the wash tunnel's Reverse Hugger and Z-Wrap brushes. This is a complete, wrap-around motor assembly, providing everything you need for a direct replacement. Its robust stainless steel case construction is specifically designed to resist rust and corrosion, ensuring long-lasting performance in the harsh, wet car wash environment.

This drive unit is versatile, as it can be used on both the driver and passenger sides of the brush assembly. It simplifies the repair process by including all the necessary components for installation.

Unit Components Included:

- Motor mount
- Hydraulic motor
- Motor retaining screw
- 90-degree JIC fitting
- Motor fastener screw
- Brush shaft
- Four-bolt bearings
- Fasteners

Please note: The independent wrap coupling is not included with this unit.

Specifications

- Product Type: Hydraulic Motor Drive Unit
- Application: Reverse Hugger and Z-Wrap Brushes
