

Rotating Turbo Nozzle

Part Number: P-WAT-2140

Description: Rotating Turbo Nozzle - Used on Flipping Wheel Blaster

Price: \$99.24

Detailed Description

This rotating nozzle is used on the Flipping Wheel Blaster application. It is used on many heavy-duty cleaning applications. Because of its 0 degree spray pattern, it is ideal for removing mud and other difficult to remove substances off hard surfaces. This 0 degree spray creates a cleaning and tearing action that results in saved time in the wash cycle.
