

Triple-Stack High Pressure Pump Station, 20 GPM

Part Number: E-SE-HP-032

Description: Triple-Stack High Pressure Pump Station, 20 GPM

Price: \$25,204.32

Detailed Description

Tommy Car Wash Systems's Triple stack pump station offers car wash owners a cost and space efficient way to power equipment in large car washes.

By incorporating three pumps within a single water holding tank, the amount of space taken up within your car wash facility is dramatically reduced. All pumps in this triple pump station are 20 GPM Hydra-Cell pumps, powered by 15 horsepower electric motors.
