

# Textured Tommy Ball

**Part Number:** A-BALL-TX

**Description:**

**Price:** \$275.0

## Detailed Description

The textured Tommy ball has many applications around the wash site including in the vacuum stations, wash tunnel entrance, Point of Sale area, etc. The Tommy balls give the wash site a fun new take on facility accents. With a spherical shape and flat bottom, they match the starbursts and arches found throughout the equipment of the Tommy's Express site. These balls provide practical applications while also being visually pleasing for guests both at the wash site and passing by. Some of the ways a Tommy ball can be used at the site include as a trash can, planter in the landscaping, vacuum hose holder in the vacuum station, traffic guide at the wash entrance or on the outside of lanes, and many more applications. They come with the option to have a removable liner in the ball or not have a liner and be solid as well as multiple colors to choose from. The balls have a 33" diameter with a flat bottom for easy install and with a weight of only 23 lbs. they can be moved without hassle. The textured UHMW plastic material provides protection from the outdoor elements while also keeping them light weight. Spice up the exterior of your wash site by displaying our textured Tommy balls throughout! These Tommy balls are not able to be shipped Next Day Air and must be shipped LTL.
