

# Wrap Mitter Combo 9 Hole Detergent Foaming Head

**Part Number:** P-M2086

**Description:**

**Price:** \$38.0

## Detailed Description

This foaming head is used in multiple applications throughout the wash tunnel including in the Wrap Mitter Combos and on multiple arches including the Rainbow Coat and Hot Wax arches. Built from ultra-high-molecular-weight polyethylene, this foaming head delivers exceptional durability and performance. It features a single row of 9 holes to apply detergent to vehicle sides evenly, ensuring thorough coverage and efficient cleaning. The 1/2" Female NPT connection provides a secure, reliable fit.

## Specifications

- Port Size: 1/2" Female NPT
- Material: Ultra-High-Molecular-Weight Polyethylene
- Single Row of 9 Holes in Each Nozzle
