

# 1-1/4" OD Tire Shine Brush Stainless Stub Shaft 4-1/2" Long Hydraulic Motors

Part Number: P-TB-214

Description:

Price: \$246.67

## Detailed Description

This Tire Shine brush shaft is used in the Tire Shine Applicator at the wash tunnel exit. It mounts the base onto the brush and fits into the tapped base bearing and coupling that connects to the spindle. Designed for hydraulic applications, it functions as either a drive or idle shaft. The shaft features a 1-1/4" diameter and is 4-1/2" in length, with a 1/4" wide keyway insert. The 4-1/4" diameter base includes four 3/8" mounting holes for secure installation. Made of stainless steel, it resists rust and corrosion, ensuring long-lasting performance in the applicator.

## Specifications

- Shaft Diameter: 1-1/4"
- Shaft Length: 4-1/2"
- Base Diameter: 4-1/4"
- Base Height: 1/4"
- Mounting Holes Diameter: 3/8"
- Material: Stainless Steel
