

# 3/4" 90 Degree Stainless Street Elbow

**Part Number:** P-WAT-2208

**Description:**

**Price:** \$8.99

## Detailed Description

This elbow is used in many systems including the Maintenance POD, Detergent POD, and the Tommy RO System at the wash site. This elbow has a 90 degree angle and features a 3/4" Male NPT connection on one end and a 3/4" Female NPT on the other. The elbow is made of stainless steel to prevent rust and corrosion in the harsh wash tunnel environment.
