

2" Stainless Steel Male Square Head Plug

Part Number: P-WAT-2213

Description:

Price: \$15.49

Detailed Description

This head plug is used in the All-In-One Pump Station in the wash tunnel. It has a 2" Male NPT threaded connection and a square head style. This male plug connects to a female plug to create a tight seal and leak proof design. The square head on the plug adds increased leverage and is easily installed with a wrench. This plug is made of stainless steel to prevent rust and corrosion from occurring in the wash.
