

1/2" Male X Female Brass Ball Valve

Part Number: P-WAT-2258

Description:

Price: \$17.52

Detailed Description

This 1/2" ball valve is used in the All-In-One Pump Station in the wash. It features a 1/2" male npt connection on one end and a 1/2" female npt connection on the other end. It is made of nickel-plated brass that is chrome-plated for longer lifespan and durability. This ball valve features a dual sealing system which allows the valve to be operated in either direction. The removable handle provides clear indication of the ball position.
