

Banner QS30RRX Receiver W/30' Cable

Part Number: CCS-71965

Description: Banner World Beam QS30RRX Receiver High Power Sensor W/30' Cable

Price: \$187.49

Detailed Description

Banner QS30RRX Sensor with 30' Cable. This high-performance, long-range sensor is perfect for applications requiring strong sensing power, such as long distances or environments with lens contamination. Extremely rugged and leakproof, it withstands tough conditions, including high-pressure washdowns. The water and debris-shedding lens minimizes contamination, ensuring reliable performance. Compact and durable, it's ideal for truck bed/gate detection and entrance photo eye sensors—no programming required. Suitable for gate, tire, and truck bed sensors.

Specifications

- Cable Length: 30'
- Sensing Range: 700'
- Barrel Diameter: 1-3/16" (30 mm)
- Supply Voltage Rating: 10-30 VDC
- Operating Temp. Range: -4F-158F
- Output Response Time: 5 ms
- # of Pins: 5
- Housing Material: Thermoplastic
- Lens Material: Zeonex
