

8 Flag Proximity Collar For 2-15/16" Drive Shaft

Part Number: P-C2158-2-1516

Description:

Price: \$165.0

Detailed Description

This collar is used in the Conveyor Belt System in the wash tunnel. The collar has 8 flags and is for a 2-15/16" drive shaft. The collar is mounted onto the drive shaft and spins as the conveyor belt runs and triggers each pole. Each flag represents a certain distance the belt moves in the wash tunnel. This collar is essential to keep the timing of the wash. The collar is made of stainless steel to prevent rust and corrosion.

Specifications

- # of Flags: 8
- Dimensions: 5" X 3/8" X 5"
- Material: Stainless Steel
