

Tire Shine Exit Bumper (10" Black UHMW Plastic, Pre-Drilled)

Part Number: P-TB-230

Description: Designed to mount underneath the Tire Shine Applicator exit. It protects vehicle tires and rims from contact with the applicator frame, featuring an indented design, rounded edge, and two pre-drilled 3/8" mounting holes for easy installation on either side

Price: \$133.0

Detailed Description

Enhance the protection and longevity of your Tire Shine Applicator with the durable Tire Shine Exit Bumper. This essential guard is engineered for seamless integration at the exit point of your tire shine applicator, providing critical safeguarding for both vehicle tires and rims. It mounts securely underneath the applicator frame, acting as a robust barrier to prevent any contact as vehicles approach the Tire Shine brush.

Crafted from sturdy black UHMW (Ultra-High Molecular Weight) plastic, this bumper is built to withstand the demanding conditions of a car wash environment, offering exceptional durability and impact resistance. Measuring 10 inches in length, 5 inches in width, and 1 inch in thickness, it features an intelligent indented design that ensures a snug and secure fit. The bumper's rounded edge is specifically engineered to gently meet vehicle tires, effectively minimizing the risk of scrapes or damage during interaction.

For reliable and straightforward installation, the bumper comes with two pre-drilled 3/8 inch mounting holes. Its versatile design allows for easy application on both driver and passenger sides of your Tire Shine applicator, ensuring optimal performance and protection across your wash bay.
