

3/4" ID Reject and RO Hose - Sold in 100' Spools

Part Number: P-WAT-2229

Description:

Price: \$222.99

Detailed Description

These hoses are typically used in the Pre-Blaster and the RO System. Bulk hydraulic hoses can be cut to a desired length, and compatible hose fittings can be attached to the ends of the hoses to create custom hydraulic hose assemblies that can be connected to equipment. Hydraulic hoses are used for transferring fluids in high-pressure petroleum and water-based hydraulic systems commonly found on industrial, mining, and manufacturing equipment. These hoses are reinforced with two steel braids to maximize their strength. This hose is sold in 100' spools.

*This hose used to be sold per foot and now is sold in 100' spools.

Specifications

- Sold in 100' Spools
- Diameter: 3/4" ID
- Pressure Range: 100-249 PSI
- Temp. Range: -40F-212F
- Material: Black EPDM
