

11002 1/4" Male Stainless H-VV Spray Nozzle

Part Number: P-WAT-2243

Description:

Price: \$12.45

Detailed Description

This versatile nozzle fits multiple applications in the wash tunnel including the Tire Shine Shield Manifold. Built from hardened stainless steel, it resists corrosion and impact for long-lasting performance. Its flat spray design delivers a uniform pattern with strong, reliable wash flow. Ideal for wands, arches, conveyors, and other high-pressure cleaning applications.
