

Tire Shine Applicator Stainless 8 Hole Manifold

Part Number: P-TB-234

Description:

Price: \$500.0

Detailed Description

Tire Shine Applicator Manifold for Wash Tunnel Exit. This stainless steel manifold is engineered for optimal water distribution within the Tire Shine Applicator, ensuring the brush remains effectively lubricated while clearing away dirt and grime. It features eight 1/4" diameter slots designed to accommodate check valves ([P-CHE-2150](#)) and nozzles ([P-CHE-2107](#)), with a single 1/2" inlet for controlled water flow. At 87" in length, this manifold delivers a durable, corrosion-resistant solution for consistent performance.

Note: This item includes the manifold only; one manifold is used per Tire Shine Applicator.

Specifications

- Water Insert Hole Diameter: 1/2"
- Spray Nozzle Hole Diameter: 1/4"
- Manifold Diameter: 3/4" ID, 1" OD
- Number of Spray Holes: 8
- Material: Stainless Steel
- Dimensions: 87" X 3/4"
