

Reclaim 5HP 3-Phase Centrifugal High Head Pump

Part Number: PURCLEAN-DHJ3-170MS3

Description: Sta-Rite DHJ3-170MS3 Pump

Price: \$2,433.15

Detailed Description

This pump is used in the reclaim system in the backroom of the wash tunnel. The pump is a high-power, high flow centrifugal pump with self-priming capabilities designed for high-volume usage. The pump is made for continual operation and can lift water up to 25' while providing a water flow up to 140 GPM. It has a capacitor start which will not cause any electrical interference with any other appliances. It has a 2-1/2" inlet port and a 2" outlet port and is made of cast iron material with a bronze impeller. The pump has a 5HP rating and is a three-phase pump.

Specifications

- Power: 5 HP
- # of Phases; 3 Phase
- Voltage: 208-230/460 VAC
- Max Flow Rate: 140 GPM
- Max Pressure: 70 PSI
- Frequency: 60 Hz
- Speed: 3,450 RPM
- Inlet Port Size: 2-1/2"
- Outlet Port Size: 2"
- Impeller Material: Bronze
- Housing Material: Cast Iron
