

10' Microboom Breakaway Gate Arm With LED Lights

Part Number: POS-WC-2022

Description: MICROBOOM-NC010 Gate Arm with LED Lights

Price: \$643.0

Detailed Description

This Microboom Breakaway gate arm is used at the Point of Sale area of the wash site. Each gate arm includes LED lights on the bottom as well as the foam protective layer. Red lights appear while arm is closed while green lights appear when arm is open. There is one gate arm used at each pay lane. This gate arm is the barrier that stops the guest from entering the wash without either paying for a wash package or having their license plate scanned and approved through the system. The gate arm is 10' in length and 5-1/2" tall. This is just the arm and does not include the base or flange.
