

Orange Tommy Ball with Liner and Dual Vacuum Holsters

Part Number: A-BALL-D-L-O-A

Description:

Price: \$300.0

Detailed Description

This textured Tommy ball is used in the vacuum station rows in the vacuum area of the wash site. The Tommy ball comes in the color orange and includes both a trash liner in the middle and double vacuum nozzle holsters mounted onto the Tommy ball. The newly designed Tommy 3.0 vacuum nozzle holsters ([P-VAC-480-K](#)) included on this Tommy ball are meant to hold the new and improved Tommy vacuum nozzles ([P-VAC-350](#)). It is important to note that one vacuum relief valve ([P-VAC-485-A](#)) will be needed for each vacuum stall. With a spherical shape and flat bottom, they match the starbursts and arches found throughout the equipment of the Tommy's Express site. These balls provide practical applications while also being visually pleasing for guests both at the wash site and passing by. They serve multiple functions in the vacuum area such as a trash can, vacuum nozzle holder, decorative piece, etc. This ball has a 33" diameter with a flat bottom for easy install and with a weight of only 23 lbs. they can be moved without hassle. The textured UHMW plastic material provides protection from the outdoor elements while also keeping them light weight. Spice up the exterior of your wash site by displaying our textured Tommy balls throughout your vacuum area! Vacuum nozzles and hoses not included.
