

Stainless 3/4" Pipe Strut Mounted Cushioned Clamp

Part Number: P-WAT-2575

Description:

Price: \$9.45

Detailed Description

This cushioned clamp is used for the plumbing systems in the wash tunnel, including the High Pressure Wheel Blaster and the Spot Free Rinse. The clamp is strut mounted providing protection against vibration fatigue, resulting in a longer life. The cushioned clamp is made of thermoplastic rubber and stainless steel to prevent rusting and corrosion.

Specifications

- Mount Type: Strut Mounted
- Tube Size: 3/4"
- Max. Load: 1,000 lb.
- Grade: 304
- Operating Temp. Range: -50F - 275F
- Material: Stainless Steel

Instillation
