

1/2" Female Stainless Straight Ball Valve

Part Number: P-WAT-2587

Description:

Price: \$8.03

Detailed Description

This 1/2" Female ball valve is used in many applications of the wash including Detergent and Maintenance POD's, Bay Wash Gun Trolley System, and Pre-Blast system. This ball valve is used as a dual sealing system which allows the valve to be operated in either direction (open or close). This ball valve offers no metal-to-metal moving parts and no maintenance is required.
