

Two-Position 5 Port Air Control Solenoid Valve 24VDC

Part Number: P-AIR-2244

Description: SV3100-5FU-X32 Solenoid Valve

Price: \$79.47

Detailed Description

This air solenoid valve is used in multiple applications of the wash site including the Maintenance and Detergent POD's, FloPro system, Water Treatment Center, and 10, 20, and 30 station manifolds. The solenoid valve has a coil voltage of 24 VDC and is meant for air applications. It has five ports and is a two-position single solenoid. It has an indicator and surge suppressor features with an internal pilot. It is part of the SV3000 series of solenoid valves.

Specifications

- Number of Ports: 5
- Number of Positions: 2
- Coil Voltage: 24 VDC
- Inlet Pressure: 0.5 MPa
- Max Operating Pressure: 101 PSI
- Operating Temp. Range: 14F-122F
- Dimensions: 4-1/2" X 3/4" X 1-1/4"
