

# Clear Superthane Ether-Based Draw Line Tubing 1/4" ID-Sold in 100' Spools

**Part Number:** P-CHE-2163

**Description:** 2100686-100 Clear Superthane Ether Tube

**Price:** \$55.5

## Detailed Description

These 100' rolls of Superthane Ether-Based Tubing are a must-have for concentrated pre-soak and brite lines in Detergent PODs and the FloPro Detergent system. Designed with a 1/4" inside diameter and 3/8" outside diameter, this tubing is built to handle tough conditions, offering strong resistance to oils, greases, fuels, and wear. Its tear, impact, and abrasion-resistant features make it perfect for high-performance use. Ready for heat sealing, coiling, and easy fabrication, these 100' spools provide a more efficient and hassle-free solution for your car wash operation.

Previously sold by the foot, now available in convenient 100' spools.
