

# Electric Passenger Side Rocker Brush Arm Unit

Part Number: P-M2179-EL

Description:

Price: \$6,048.0

## Detailed Description

This rocker brush arm unit is designed to attach directly to the rocker brush, facilitating its movement within the wash tunnel. Preassembled and fully equipped for immediate use, the unit is tailored for electric wash sites and specifically intended for the passenger side of the tunnel. Note that the rocker brush itself is not included. It features a custom bearing mount plate and is compatible with 26" rocker brushes. The unit arrives fully assembled with all necessary components: hose lines, mounting hardware, brackets, shock absorber, and mounts, ensuring a straightforward installation process.
