

# 6' Blue LED LIGHT BAR 288 WATT

**Part Number:** P-LED-1043

**Description:**

**Price:** \$1,019.15

## Detailed Description

This light bar is used in multiple applications of the wash tunnel including custom blue light applicator arches. This light bar wattage is 288 W and is blue in color to give an illusion of a colored solution. It is 6' in length and UL approved to withstand the elements of the wash tunnel. These light bars have IP66 protection but should not be directly sprayed by water. The bars are made with an aluminum body with a tempered glass lens to protect the lights from water and other elements. Included with the light bar are mounting brackets that swivel for easy installation and application in the wash tunnel.
