

# Tommy's Express Rainbow Coat (™) Applicator

**Part Number:** TX-E-RC-APP-A

**Description:** Tommy's Express Rainbow Coat (™) Applicator, Does Not Include Rainbow Coat (™) Arch

**Price:** \$4,152.0

## Detailed Description

Tommy's Express Rainbow Coat (™) Applicator is used on the Rainbow Coat (™) Arch to apply the Brite Detergent onto the incoming cars. The applicator is mounted at the top of the Rainbow Coat (™) Arch, releasing the detergent from above the cars for complete vehicle coverage. The applicator utilizes a rain bar system, bringing in the detergent from the Detergent POD and applying it through foam generators into a 1 row rain bar and side foaming heads. From there, gravity takes over and applies the detergent onto the vehicle. Two 6' LED light bars are mounted behind the rain bar, giving the appearance the detergent is multi-color through the changing Red, Green, and Blue LED lights. The Tommy's Express Rainbow Coat (™) half round sign is mounted above the rain bar and covers the light bars. Included with the Rainbow Coat (™) applicator is the rain bar, foam generators and heads, Tommy's Express branded "Rainbow Coat" (™) half round sign, LED light bars, and mounting brackets. All of the necessary hardware is also included with the unit. **This applicator does not include the arch or side panel signage, it is just for the applicator, half round sign, and light bars.**

## Specifications

- # of Rain Bar Rows: 1
- Light Bar Length: 6'
- Light Bar Colors: Red, Green, and Blue
- Hardware Material: Stainless Steel
- Dimensions: 90-1/8" X 25-1/4"
