

Tommy Vacuum Pleated Filter and Clamp

Part Number: P-VAC-230-K

Description:

Price: \$162.55

Detailed Description

This vacuum filter and clamp are used as replacement parts in the Tommy Vacuum system in the Vacuum area of the wash site. These filters go into the vacuum producer while the clamp holds in place the vacuum bag that is wrapped around the filter. Tommy vacuum units provide unrivaled performance, convenience, and style for customers at Tommy car washes around the world. This replacement cartridge filter fits Tommy Dual Motor, Semi-Central, and Tommy 2.0 vacuum units to keep vacuums working at full capacity. Filter is pleated for increased surface area and constructed from high performance Ecospun napped synthetic filtration material. The filter has 45 pleats and has a 6-1/4" outside diameter. The clamp included with the filter is stainless steel and has a max diameter of 7" with a 9/16" width.
