

# O-Ring / Gasket for Empress Lid/Cap

**Part Number:** P-WAT-2760

**Description:** Replacement O-Ring/Gasket designed for the Empress Lid/Cap, specifically P-WAT-2514. This versatile O-ring also serves as a critical seal for the bottom of 5-micron filter housings, ensuring leak-tight performance

**Price:** \$13.56

## Detailed Description

Vital sealing component engineered to provide leak-tight connections in the Tommy RO unit for the Empress Lid/ Cap ([P-WAT-2514](#)), as well as on the bottom of the 5-micron filter housings. Its essential function is to create a secure seal, preventing bypass or leakage of water and ensuring the filtration process operated effectively.

## Specifications

- Product Type: O-Ring / Gasket
- Compatibility 1: Empress Lid/Cap ([P-WAT-2514](#))
- Compatibility 3: Bottom of 5 micron filter housing
- Function: Sealing to prevent leaks and bypass.
