

Direct Mount Blower Arch with Arch Tags

Part Number: E-B2008-A

Description: Stainless Steel Drying Arch for Direct Mount Blower Producers and Heated Blowers

Price: \$2,178.0

Detailed Description

A good car wash leaves produces clean cars, a GREAT car wash produces cars that are not only clean, but shiny and dry as well. Take advantage of the most powerful and flexible total car drying system available with Tommy Car Wash Systems' Drying Direct Mount Blower Arch! This stainless steel car wash arch supports a large number of blowers which can be used and spaced as desired, allowing operators to optimize their systems for best performance. The drying arches have reduced diameter, bringing blowers closer to the vehicle for greater drying performance. If you order 2 or more arches they will need connector braces for increased stability. A single arch will need leg support braces. Dual or Triple arch arrangements recommended.
