

High Pressure Pump Outlet Plumbing Kit

Part Number: E-HP-209-A

Description: High Pressure Pump Outlet Plumbing Kit - For Triple Threat Wheel Blaster Application

Price: \$1,530.0

Detailed Description

This plumbing kit includes all the fasteners and parts needed to run the 3/4" stainless tube lines down the ladder rack to the Triple Threat application. There is one kit needed per pump used. So if a double stack pump station is being used, then two kits are needed. All the parts in this kit are shipped loose. Not all items in kit are in the picture.
