

2-5/16" to 2-5/8" Stainless Hose Clamp

Part Number: P-WAT-2788

Description:

Price: \$9.84

Detailed Description

This T-Bolt Clamp is used in the All-In-One Pump Station in the backroom of the wash tunnel. It has a clamping range of 2-5/16" to 2-5/8" and a 3/4" band width. It is made of stainless steel to resist rust and corrosion. This clamp offers a uniform sealing pressure for a positive reliable seal. It is specifically designed to be used in high vibration, large diameter applications such as the vacuum systems.

Specifications

- Band Material: Stainless Steel
- Band Width: 3/4"
- Bolt Material: Steel
- Maximum Diameter: 2-5/8"
- Minimum Diameter: 2-5/16"
- Size: 225
- Style: Heavy Duty
- Type: T-Bolt Clamp
