

# Milwaukee SAE Combination Wrench 7 Piece Kit

**Part Number:** TX-A-2144467

**Description:** Milwaukee SAE Combination Wrench 7 Piece Kit - 3/8"-3/4" Range

**Price:** \$74.99

## Detailed Description

These Milwaukee SAE combination wrenches offer 25% more torque than the competition due to the Max Bite open-end grip on each wrench. Each wrench is designed with an I-beam comfortable handle design and has ink-filled size labels for easy identification. These wrenches have a 15 degree offset and 12 point box end. The geometry of the wrench reduces rounding and stripping and they come in a portable storage rack.

## Specifications
