

Tommy's Express Ceramic Body Wax Applicator

Part Number: TX-E-CW-APP-A

Description: Tommy's Express Ceramic Body Wax Applicator, Does Not Include Ceramic Body Wax Arch

Price: \$2,496.0

Detailed Description

Tommy's Express Ceramic Body Wax Applicator is used on the Ceramic Body Wax Arch to apply the Ceramic Body Wax Detergent onto the incoming cars. This gives vehicles an enhanced shine and reduces water spotting. The applicator is mounted at the top of the Ceramic Body Wax Arch, releasing Ceramic Body Wax detergent from above the cars for complete vehicle coverage. The applicator utilizes a rain bar system, bringing in the detergent from the Detergent POD and applying it through foam generators into a 1 row rain bar and side foaming heads. From there, gravity takes over and applies the detergent onto the vehicle. One 6' LED light bar is mounted behind the rain bar, giving the appearance the detergent is multi-color through the changing Red, Green, and Blue LED lights. The Tommy's Express Ceramic Body Wax half round sign is mounted above the rain bar and covers the light bars. Included with the Ceramic Body Wax applicator is the rain bar, foam generators and heads, Tommy's Express branded "Ceramic Body Wax" half round sign, LED light bar, and mounting brackets. All of the necessary hardware is also included with the unit. **This applicator does not include the arch or side panel signage, it is just for the applicator, half round sign, and light bars.**

Specifications

- # of Rain Bar Rows: 1
- Light Bar Length: 6'
- Light Bar Colors: Red, Green, and Blue
- Hardware Material: Stainless Steel
- Dimensions: 90-1/8" X 25-1/4"
