

1" Female Brass Pressure Unloader

Part Number: P-SE-2201

Description: Cat Pump 7592 Pressure Unloader

Price: \$477.5

Detailed Description

This brass pressure unloader is designed for the All-In-One Pump Station, effectively controlling water pressure and preventing it from exceeding a preset maximum. Featuring 1" Female NPT ports on all three ends, it's ideally mounted vertically with the adjusting bolt on top. Its hexagonal shape prevents jamming, and the screw and locknut allow for easy pressure adjustments, maintaining full system pressure during bypass operation without fully loading the pump.

Specifications

- Port Size: 1" Female NPT on all Three Ends
- Flow Range: 10-52 GPM
- Pressure Range: 450-2,500 PSI
- Max Operating Temp: 200F
- Material: Brass
- Dimensions: 8-7/8" X 5-1/16" X 1-5/8"

Instillation
