

Tommy Vacuum Stanchion

Part Number: E-VAC-121

Description:

Price: \$

Detailed Description

Upgrade your vacuum area with our comprehensive vacuum stanchion and arch unit, designed for each vacuum stall at your wash site. This unit provides the essential framework for mounting the rest of the vacuum system, ensuring a seamless and efficient setup.

Included in this unit are the stanchion, spreader bar, two vacuum arches, canopy, and all necessary hardware. The stanchion stands 120" tall on a sturdy 15-1/2" square base plate, while the spreader bar measures 116" long with a 1" outer diameter. The two vacuum arches are 149 - 1/2" long, providing ample coverage. The canopies are 116" wide and available in multiple color options, including Black, Blue, and Orange.

Constructed from durable stainless steel, the stanchion, spreader bar, vacuum arches, and hardware ensure longevity and resistance to elements. Improve your vacuum stalls with this reliable and stylish unit and provide a superior vacuuming experience for your customers.
