

# Sobrite Adder Odor Control Unit

**Part Number:** E-RECLAIM-ADDER-INC

**Description:** Sobrite YRAP1500-OC-PW Unit

**Price:** \$4,750.0

## Detailed Description

This Sobrite Adder is used as a retrofit part in the reclaim system in the backroom of the wash site. The adder is used as a replacement box for sites that currently utilize ozone in their reclaim system. This odor control unit helps sites switch to UV light to better mitigate bacteria and smell in the reclaim system and yields lower maintenance costs in the long run. The Adder is adaptable to any reclaim system and has a current rating of 120 VAC and amperage rating of 15 A. **Frame in the picture is not included with the unit.**

## Specifications

- Current Rating: 120 VAC
- Amperage Rating: 15 A
- Dimensions: 48" X 15-1/2"

## Instillation
