

Vacuum Mounting Shim Plate for 4.6HP Motor

Part Number: P-P-0093

Description:

Price: \$20.33

Detailed Description

This vacuum shim plate is used in the Tommy vacuum 4.6HP motor system. The shim plate is used to help mount the vacuum to the left and right side mounting brackets. The shim helps keep the 4.6HP motor in place when mounted on the top of the vacuum canister. By being made of stainless steel material, this shim plate holds up to the outdoor weather environments and resists corrosion and rust. It has four mounting holes with 1/2" diameter openings.

Specifications

- Mounting Hole Diameter: 1/2"
- Material: Stainless Steel
- Dimensions: 5-7/8" X 4-3/4" X 3/16"
