

# Wrap Brush Bearing Shim

**Part Number:** P-S-0091

**Description:**

**Price:** \$12.5

## Detailed Description

This shim is used in the Wrap brush system in the wash tunnel. This shim gives a better angle for the wrap to ensure the wrap works correctly. It is 9" long and has two U-shaped cutouts that are 1" in diameter. The shim is 2-1/2" tall and made of stainless steel material.
