

Aluminum Banana Tree

Part Number: E-TREE-BANANA-2-K

Description:

Price: \$267.0

Detailed Description

This tree package is a complete kit used to make one Banana style tree. These trees make perfect decorative icons in landscaping and can be spread out through the wash site. The package includes the two tree halves, two tree spikes, and 1/4" mounting hardware used to mount the spikes to the halves. Tree half 1 easily slides on top of tree half 2 for simple installation. The assembled Banana tree is 48" tall without spikes and 62" tall with spikes mounted on the bottom. It has a width of 35-1/8" and is made of aluminum material. All items ship loose and will need to be built onsite.

Specifications
