

Aluminum Palm Tree

Part Number: E-TREE-PALM-2-K

Description:

Price: \$226.67

Detailed Description

This tree package is a complete kit used to make one Palm style tree. These trees make perfect decorative icons in landscaping and can be spread out through the wash site. The package includes the two tree halves, two tree spikes, and 1/4" mounting hardware used to mount the spikes to the halves. Tree half 1 easily slides on top of tree half 2 for simple installation. The assembled Palm tree is 54" tall without spikes and 68" tall with spikes mounted on the bottom. It has a width of 25" and is made of aluminum material. All items ship loose and will need to be built onsite.
