

Glass Cuvettes and Caps for Chlorine Colorimeter - Pack of 2

Part Number: P-CHE-2185

Description: HI731315 Glass Cuvettes and Caps

Price: \$23.99

Detailed Description

These glass cuvettes and caps are used with the [Chlorine Colorimeter \(Chlorine Checker\)](#). The glass cuvettes are used to get accurate water testing for the water used in the wash tunnel. They have a 10 mL level mark to ensure correct amount is used in testing and are made of glass material. These are easy to replace and essential to keep clean and non-scratched cuvettes for most accurate test results. These cuvettes come as a pack of 2 and include the plastic caps.

Specifications
