

# Fixed Rocker Blaster Set with Fittings 28-3/4" Tall

Part Number: P-W-0107-A

Description:

Price: \$977.5

## Detailed Description

This Fixed Wheel Rocker Blaster Set includes both driver and passenger side blasters that are mounted usually to the arch at the entrance of the wash tunnel. The blasters deliver intense cleaning to the vehicle rocker panels and wheels with four high pressure nozzles as they move through the wash cycle. These blasters are stationary and apply equal cleaning power to the entire lower side of the vehicle and is leg mounted to the bottom of the arch. There are four 1/4" 4010 nozzles used on each blaster. Each blaster is made of stainless steel construction and includes one 1/2" Male NPT X 1/2" Male JIC stainless elbow for water hookup. These blasters come as a set of two and are each 28-3/4" tall with a 7-3/4" U-shaped base with four 5/8" mounting holes.
