Price: \$

Detailed Description

This Tommy's Express decal is used at the Tommy vending machines at the vacuum stations. It is used to describe information to the guest on what to do to receive a detail kit from the vending machine and what items are included in the detail kit. This decal helps point out where to insert a credit card or where to scan a code to purchase on a Tommy vending machine, where the detail kit will be dispensed, and shows a price of \$5 or \$3 per kit. Option 1.0 is meant for machines that do not have a window on the unit, option 2.0 is meant for machines that do have a window on the unit. This specific decal shows how a microfiber towel is included in the detail kits along with a dust cloth, glass wipes, all-purpose wipes, and air fresheners. The red background catches the eye while delivering critical information in an effective way.

[If ordering QR Code style replacement decal, you also need to order a blank QR Code for each vending machine decal using P-DEC-299. Call our Equipment Support team at 616-795-4892 to have these QR codes programmed for your specific site's vending machine systems.](#)
